

Reethika Precision Engineering

**Precision Controlled
Production Machining**

About us

Reethika Precision Engineering is an IATF 16949:2016, AS9100D certified manufacturer of CNC precision machined parts and Assembly parts.

➤ Product Range :

- Automotive Components
- Aerospace Components
- Telecommunications Components
- Chemicals Machinery Components
- Valve industry parts
- Minerals & Metallurgy Machines Components
- Power & Energy Industries Components
- Mechanical Engineering Parts
- Medical products and Equipment's
- Pneumatic Components
- Hydraulic Components
- Rubber & Plastics Machinery Components
- Fuel Dispensing Systems Components
- Pharmaceuticals Machines Components
- Agriculture Machinery Components
- Food & Beverage Machines Components
- Textiles Machinery Components
- Packaging & Printing Machinery Components

Product Range

Bush Turning Part

Block machining Part

Valve machining Part

FORGING PARTS

WELDING, RIVETING ASSEMBLY PARTS

Product Range

Turning machining Part

Turning Part

Turning Part

Precision machining Parts

Sheet metal parts

PDC machined Parts

Product Range

CNC Turned Parts

SHAFTS

Precision Parts

HSS Precision Part

Turning, Machining part

PDC – Response Cover Assembly

Range of Materials

RPE machining expertise encompasses a wide array of materials and also offer as per customer requirements.

Forms → Bars, Rods, Castings, Forgings, Sheets, Tubes etc.

Metals → Inconel Alloys, Stainless Steel, HSS, A2, AL Bronze, Aluminum, Carbon Steel, Copper and Brass etc
